## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation of “upper and lower boom member...forming a triangle...” and “cross ties...for connecting said lower boom members to each other.” in claim 1 is very vague and indefinite in that it is not clear how a “triangle” is formed with only two members (i.e. an upper and a lower member). The claim never details a third member to form the triangle. The claim apparently assumes a third lower member. However, without positively claiming this third member, no triangle can be formed, nor can the lower members be connected if there is only one lower member. Clarification and correction is required.

### ***Allowable Subject Matter***

3. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Art Unit: 3635

4. Claims 2-6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. Claims 7 and 8 are allowed.

6. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach the use of a truss including a truss brace/boom member having two inclined members with a straight bridge at an upper portion and ending without a bend at a lower portion.
